## SUMMARY

Senior software engineer with over 5 years of professional experience. I currently lead a team of 5 working on mission critical features and modernizations for my employer's enterprise software.

## SKILLS

**CURRENT STACK:** JavaScript, React (Hooks), Styled Components, Material UI, Laravel, PHP, MySQL, Node, Git, Docker, AWS, Jira, GitHub

**FAMILIAR WITH:** MongoDB, PostgreSQL, GraphQL, Jest, React Testing Library

## EXPERIENCE

**Senior Software Engineer, [StepStone Group](#)** 1/2024 – Present

- Tech lead for a team of 5, leading the planning and development of several full-stack mission critical features and modernizations via cross coordination with project managers, ui/ux teams and stakeholders.
- Ensuring the timely delivery of projects and unblocking developers as needed by providing technical expertise.
- Mentoring software engineers and ensuring their growth.

**Software Engineer II, [StepStone Group](#)** 1/2021 – 1/2024

- Designed & led the development of a React user interface library that serves as the department component toolkit for all our React applications. Created the core components and oversaw the work of 9 contributing engineers. Led to a 10x increase in developer output and created a single source of truth for ui components, drastically decreasing the potential for bugs/unintended side effects.
- Interim team lead for 3 months, was responsible for hotfixes, sprint deployments, sprint meetings & rituals, code reviews and developer support for a team of 11 engineers.
- Sat on the hiring board for the company and helped in the hiring of multiple engineers and ui/ux professionals.

**Software Engineer I, [StepStone Group](#)** 11/2018 – 1/2021

- Led the front-end modernization effort of migrating a large legacy PHP/JavaScript app to using React/Laravel frameworks resulting in increased developer productivity and a better ui/ux experience for our users.
- Created the internal documentation space for the engineering department. Self-started several company bi-weekly events, such as our leetcode challenge, code review, code jeopardy, and several education events.
- During this time I mentored four engineers in the department.

## EDUCATION

Software Engineering  
Associates of Science in Biology

Thinkful Software Engineering Program  
Imperial Valley College
